CAREER SUMMARY

I am interested in full-stack/backend developer and seeking to pursue a successful career path in software development.

WORK EXPERIENCE

Fullstack Developer
Biti's
Nov 2018 - Present

The company's business is manufacture shoes and retail. And I work as a fullstack developer at IT department in Biti's Company. There are many projects that I have joined, such as Biti's Loyalty Mobile App, Biti's Staff App, Point of Sale and Promotion plans. My team are migrating monolithic to microservices systems. I was nominated as Leader in my team, so that I have to make a lot of efforts.

Achievements:

- Loyalty App: The Mobile App for Customer Services.
- Pos Web: Point of Sale in website environment.
- Deposit App: The Mobile App for sale and delivery.
- Year End Promotion: The Year End Promotion plann in Dec 2019, it run in website environment.
- Promotion Centralized: The gateway Promotion centralized for create and manage promotion planning.
- Bitopia: The Mobile App for Biti's Staff.
